

Disrupting the Cycle

DUAL GENERATION

Dual Generation is a family-centered initiative that targets low-income families in San Antonio's East and West sides.

We believe that when children are surrounded by strong communities, they are set up for a brighter future.

Dual Generation utilizes a collective impact approach to ensure that the varied needs of families can be addressed. We offer parents adult education, workforce training, quality child care assistance, after-school opportunities and more to help them achieve their goals.

Dual Generation is creating hope by empowering families to break generational barriers, achieve greater stability and reach their full potential.
