

WE HELP STUDENTS SUCCEED AND PREPARE FOR ADULthood

Our Successful Students Impact Area aims to ensure students stay engaged in school and their community. In Bexar County, 1 in 3 third-grade students do not read at grade level and 1 in 3 eighth-grade students are behind in math*. United Way works to address the challenges that students face to reach academic milestones and transition into adulthood.

Together, the Successful Students Impact Area is working to:

- **Increase reading proficiency** by providing academic resources and support.
- **Increase math proficiency** by providing STEM and STEAM-specific learning opportunities in school and out of school.
- **Reduce chronic absenteeism** by providing support services for students and their caregivers.
- **Decrease the number of opportunity youth (ages 16-24)** by connecting youth to education or workforce training.

2024 IMPACT

1,094 STUDENTS

in first to third grade are reading at or above grade-level

919 STUDENTS

are without disciplinary referrals

610 OPPORTUNITY YOUTH

ages 16 - 24 are reengaged in education or the workforce

Meet Jareli

After struggling with attendance throughout high school, Jareli felt behind and stuck. When she gave birth to her daughter, she knew she had to change her path. With United Way's help, she returned to school to earn her diploma and her phlebotomy certification. Now she has a career path she is excited to pursue.

Learn how Jareli and others were impacted by United Way.
