

Disrupting the Cycle

DUAL GENERATION

Dual Generation is a family-centered initiative that serves low-income families in San Antonio's East and West sides and military community (Military Dual Generation). We believe that when children are surrounded by strong communities, they are set up for a brighter future.

Dual Generation utilizes a collective impact approach to ensure that the varied needs of families can be addressed. We offer parents adult education, workforce training, quality child care assistance, after-school opportunities and more to help them achieve their goals.

Dual Generation is creating hope by empowering families to break generational barriers, achieve greater stability and reach their full potential.

average time spent receiving services through Dual Generation

241 ADULTS

enrolled in education or workforce training

"I was scared. I had a baby. I didn't think my circumstances looked like they were setting me up to succeed. Without child care, I don't think I would have gone back to school."
